

Friday December 6th, 2013

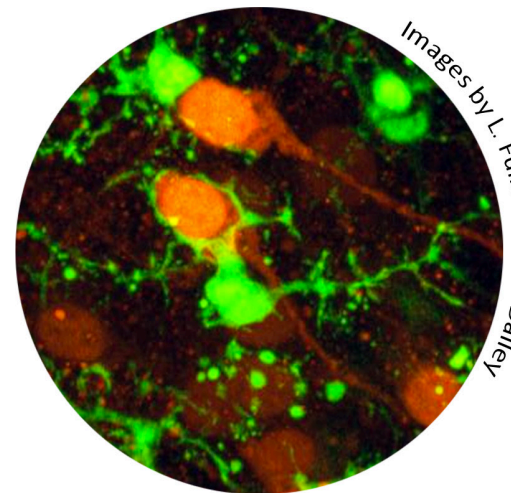

Nutrition & Neuroinflammation Symposium

Save the date!

University Bordeaux Segalen, Amphithéâtre 8

Co-organized by Agnès NADJAR, Sophie LAYE and Véronique PALLET

Co-funded by INRA and AEN network

9h-9h45: Richard BAZINET (Canada)

Docosahexaenoic acid – out of the membrane and bioactive in neuroinflammation, and its resolution.

9h45-10h30: Agnès NADJAR (Bordeaux)

Perinatal n-3 PUFA deficiency and microglia-neuron interactions.

10h30-11h00: Coffee break

11h00-11h45: Amanda SIERRA (Bilbao)

Interface between phagocytosis and inflammation: the roles of microglia in the healthy and diseased brain.

11h45-12h30: Claudia VERDERIO (Milan)

Pathogenic role of microglia-derived microvesicles in neuroinflammatory diseases

12h30-14h00: Lunch break

14h00-14h45: Nathalie CASTANON (Bordeaux)

Obesity-related emotional and cognitive alterations: role of neuroinflammation.

14h45-15h30: Teresa REYES (Philadelphia)

Maternal diet affects brain development: a comparison of under- and over-nutrition.

15h30-16h30: Coffee break and closure of the day
